Western **border fort**.
LOWER EGYPT
Eastern **border fort**.
The pyramids were built here. Most of the stone for the pyramids came from nearby limestone quarries - however different parts of the pyramids were built with different stones - some of which came from up to 900kms away.
MEMPHIS: Capital of Ancient Egypt from 2950 BCE to 2180 BCE during which times the pyramids were built.
Black Lands = the land directly next to the river. The soil was rich and black from the river flooding each year.
Red Lands = the red desert to the West and East of the Nile.
UPPER EGYPT
Southern **border fort**.
ANCIENT EGYPT
